SUMMARY

Detail-oriented B.Tech Computer Science & Engineering in Artificial Intelligence & Machine Learning student with a strong analytical foundation and hands-on exposure to programming, data analysis, and visualization tools. Skilled in Python, C, SQL and Power BI tools with a growing focus on Data Science and Generative AI. Seeking entry-level roles jobs in Data Analyst, Data Science, or related technical domains.

CORE SKILLS

Technical Skills

- Programming : Python, C
- Data Handling & Analysis : SQL, Python(NumPy, Pandas - foundational)
- Data Visualization : Power BI, Tableau
- Productivity Tools : MS PowerPoint, MS Excel, MS Word
- Currently practicing Data Science through projects and coursework

Soft Skills

- Analytical Thinking & Problem Solving
- Multitasking and Adaptability
- Team Collaboration
- Troubleshooting and Logical Reasoning

EDUCATION

Bachelor of Technology

2021-2025

Adamas University

- Computer Science Engineering in AI & ML
- Final CGPA : 7.55

Class XII

July 2021

Suriya Moulana Azad High School

Percentage : 75.00 %

Class X

Feb 2019

Kolsur Balika Vidyalaya

Percentage : 67.00%

INTERNSHIPS

Vraio

Aug 2024 - Dec 2024

Web Development

Next24Tech

Web Development

Embrizon Technology

Data Analyst

CERTIFICATIONS

Certificate in Data Science & Generative AI

Aug 2025 - Dec 2025

Boston Institute of Analytics

PROJECTS

- Project on Employee Recruitment Prediction using Machine Learning
- Project on Heart Disease Prediction using Machine Learning
- Project on Budget Buddy using HTML,CSS and JS
